Our 73 pound yellow lab had 8 puppies on January 31, 2021. Daddy is a 90 pound chocolate lab. We have one yellow lab puppy available. She is the smallest 37 pounds at 16 weeks and is the sweetest puppy of the litter. Sensitive, smart and gentle girl who is great with children. I would like to find a home for Skye soon, I am getting very attached. Must go to a home where she is part of the family, loved, cared for appropriately, kept up on all of her vaccines and a plan for spay soon.
